SUMMARY

Product Manager, AEM Architect and Lead Software Engineer with 20+ years experience in building and selling enterprise-grade digital experiences to major brand companies like Mayo Clinic, Crate & Barrel, Wyndham, Grainger, CDW and more. I combine hands-on engineering with product ownership and project management leadership, driving measurable gains in performance, accessibility, personalization, user experience, customer satisfaction and revenue growth.

CORE SKILLS & TECHNOLOGIES

Leadership & Delivery – Technical architecture, product and project management, roadmap definition, stakeholder alignment, cross-functional team leadership, agile/Scrum, requirements discovery, UX collaboration, technical documentation, training and enablement.

Analytics, Testing & Optimization – Adobe Analytics, Google Analytics, Google Tag Manager, Optimizely, A/B & multivariate testing, experimentation frameworks, conversion rate optimization.

Security, Compliance & Quality – Application security, cybersecurity best practices, PCI DSS, NIST, WCAG 2.1 / Section 508 accessibility, automated testing, regression testing, code reviews and more.

Platforms & DXPs – Adobe Experience Manager (on-prem & Cloud), Adobe Marketing Cloud, Adobe DAM, Adobe Launch, Adobe Target, SiteCore, WordPress, Acquia, Optimizely, Drupal.

Frontend Engineering – HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Angular, Vue, Three.js, responsive UI, component-based design, micro-frontends (Webpack Module Federation)

Backend Engineering – Java, Spring Boot, Node.js, REST APIs, OSGi, Sling Models, JCR/Apache Jackrabbit Oak, server-side rendering, seamless integration with third-party platforms and gateways.

Cloud, DevOps & Tooling – AWS, Azure, Linux, Jenkins, Git, Maven, CI/CD pipelines, build and release automation, logging/monitoring, performance tuning, and release process management.

Cache, Data, Search & Storage – MySQL, NoSQL, Postgres, SQL Server, MongoDB, DynamoDB, Redis, Elastic Search, Akamai, hands on with the top search / indexing and caching strategies.

WORK EXPERIENCE

Mayo Clinic - Lead Architect / Developer / Product Manager / Sales - Codex Creative

JANUARY 2024 - PRESENT

- **Enhanced Mayo Clinic's Executive Health Experience** by updating their Adobe Experience Manager (AEM) with new designs created by Cactus.is to showcase the expertise and experience of their Health Care System; Cactus was the Agency B2B with my company Codex Creative, LLC.

- **Led AEM Development, Content Creation / Project / Product Management** across multiple departments integrating aspects of Adobe Analytics, Microsoft Dynamics, Apigee and Dynamic Asset Management (DAM) while still being hands-on in the code, ensuring effective team communication across the stack from dev-ops, to authoring, analytics and documentation.
- **Expanded Mayo's AEM Capabilities by Architecting Components** in a way that allowed for custom experiences to be authored by leveraging component-driven development where components were reused and nested within each other and styled accordingly, delivering value that well exceeded initial expectations while still maintaining proper ARIA Accessibility.
- **Provided Agile Coaching, Led Ceremonies and Coordinated** across in-house and client teams by managing ceremonies, project estimations, business processes and workflows; with the goal of fostering a collaborative and productive environment that promotes product development.
- **Managed Cross-Functional Department Alignment** for seamless content management development on Adobe Experience Manager on-prem that used Apache Jackrabbit Oak, Felix, OSGi, Spring Boot, Granite, JSP, React, JS and TypeScript.

Wyndham / Travel + Leisure Co. / ARN - Software Engineer / AEM Developer - FTE

MARCH 2021 - DECEMBER 2023

- **Created a Dynamic Integration of AEM Headless in the AEM Cloud**, seamlessly integrated with a custom-built white-label CMS utilizing the Expedia Platform API, Adobe DAM, and Java OSGi Web Services to give users exclusive hotel rates and vacation packages.
- **Engineered Content as a Service (CaaS)** with AEM and 3rd party APIs, providing scalable, reusable components across luxury travel brands while ensuring SEO and content syndication.
- **Implemented User Personalization with Advanced JavaScript and A/B Testing**, with Google Optimize, Analytics and Tag Manager to enhance engagement and track performance across a portfolio of premium travel sites and 3rd party implementations for travel discounts.
- **Optimized System Performance by Reducing API Response Times** through in-depth analysis and strategic bottleneck resolution, ensuring timely, dependable project completions for multiple stakeholders and audiences.
- **Oversaw a Continuous Integration CI/CD Pipeline Management** using Jenkins and Git, enabling automated, seamless deployments and enhancing AEM back-end service stability to communicate to applications on AWS and Rackspace to support high-traffic travel applications.
- **Wrote and Performed Unit and Regression Testing** to maintain excellence in stability, quality, and best practices for multi-domain branded custom sites with authentication and authorization flows leveraging OAuth 2.0 and Okta for a seamless experience with 3rd parties.
- **Excelled in Cross-Functional Collaboration**, adeptly managing client and vendor relations and aligning technical implementations with strategic business goals.
- **Implemented Industry Best Practices** for accessibility, scalability, performance, and compliance (WCAG 2.1, CCPA/CPRA/GDPR, Section 508, PCI DSS, NIST).

Reynolds Inc. & Ariel Manufacturing - AEM Developer - Bounteous Agency Contractor

JANUARY 2020 - MARCH 2021

- **Diagnosed and Resolved Intricate Front-End Challenges** using React, JSON, and REST API Integrations, Enhancing Functionality, User Satisfaction, A/B Testing, and AEM improvements.
- **Led and Mentored Global Development Teams** working on AEM 6.5, 6.4, and AEM in the Cloud, establishing best practices and driving platform adoption for impactful client results.
- **Guided Teams in Agile Transformation** while overseeing development projects and contributing code software updates hands-on to ensure timely contributions to high-quality deliverables.
- **Interactive AAA Gamification** for marketing campaigns to achieve customer growth and loyalty.
- **Worked with Agency Partners** to represent their business to their clients, identifying client needs and optimizing communication between Design, Project Managers and a satisfied Customer.
- **Developed Dynamic Front-End Solutions** from Adobe XD designs, integrating with JSON REST API calls and a tech stack including JavaScript, Grafana, YUI, Sencha, Node.js, NPM, and LESS CSS, for seamless, data-driven content delivery from the AEM JCR repository and Adobe DAM.
- **Boosted User Engagement** through targeted UI/UX enhancements, gamified elements, high-impact digital marketing and customer education.

Great Wolf Lodge - Senior Web Developer / Team Lead / Product Owner - FTE

JULY 2019 - JANUARY 2020

- **Led Cross-Functional Teams in Migrating** their existing Drupal 6 site to AEM 6.4 in Azure Cloud, incorporating React JS and ASP.net C# Web API for a modernized, high-performance backend, resulting in a 40% improvement in system efficiency to enhance guest digital experiences.
- **Expertly Integrated AEM with Adobe Suite Tools** (Adobe Analytics, Target, Audience Manager, DAM, and Adobe Experience Manager) to track visitor engagement, personalize content, A/B test designs and streamline digital asset management.
- **Transformed Designs from Marketing** with a variety of tools from InDesign, Sketch, Photoshop and Figma into interactive front-end experiences in React, utilizing JavaScript, CSS, HTML, SLY, OSGI, Sling Model, Touch UI, JCR, and Maven to deliver responsive, captivating AEM components.

Grainger Industrial Supply - Software Engineer 2 (Front-End Engineering Team) - FTE

MARCH 2017 - JULY 2019

- **Implemented Front-End Solutions** that enhanced homepage and checkout performance by 30%, driving significant improvements in conversion rates and customer retention for high-volume sales that used Java & Next.js along with React and Smarty Template Front-End.
- **Conducted Comprehensive Code Reviews and Debugging** to ensure flawless software releases on Amazon AWS, optimizing performance on the Java-based Hybris eCommerce platform.
- **Collaborated with Backend Teams to Integrate APIs**, enabling seamless data flow and reliable transaction processing across multiple applications.
- **Served as Lead Engineer for the Personalization Team** on key areas like the homepage, blog, and checkout funnel, leading to increased repeat sales through tailored content and customer engagement.
- **Increased Revenue and Customer Retention** by integrating personalized shopping history and analytics, collaborating closely with cross-functional teams to enhance user experience with Optimizely A/B testing to perfect the customer experience from the homepage to checkout.
- **Utilized Redux-Saga for Effective Side-Effect Management in React Applications**, improving application stability, user experience and interface predictability.
- **Drove Collaboration between Design, UX, and Analytics Departments** to develop a streamlined auto-reordering system, enhancing customer convenience and engagement.
- **Led the Migration to a Micro-Frontend Architecture using Webpack Modules**, reducing deployment times by 40% and significantly improving code maintainability and scalability.
- **Developed and Integrated Front-End Solutions** across AEM 6.4, Node.js, JavaScript, React, Redux, Vue.js, Java, Material UI, Smarty Templates, LESS, Flutter, Hybris eCommerce, and WordPress to create a cohesive, high-performance website experience.

CDW Inc. - Sr Front End Web Developer & AEM Integration Manager - PTP Consultant

AUGUST 2015 - MARCH 2017

- **Engineered a Responsive Design Framework with ASP.NET and Headless AEM**, optimizing site performance across devices, leveraging AEM Sites for page content and the DAM for asset management, resulting in a +40% traffic boost.
- **Implemented a Seamless Content-as-a-Service (CaaS) Integration** from AEM 6.3 to a .NET ASPX system, utilizing Node.js, Gulp, and SASS for efficient content distribution and streamlined management.
- **Developed an Interactive Product Recommendations Grid Filter** that boosted product revenue by 460%, enhancing product discovery through targeted filtering and intuitive functionality in a responsive fashion to boost mobile sales.
- **Led A/B Testing Strategies with Optimizely**, achieving a 12% improvement in conversion rates by refining interface elements and optimizing user interactions.
- **Created SEO-Focused Blog and Solution Pages** that drove a significant increase in lead generation contact form completions, supporting brand visibility and audience engagement.
- **Designed and Managed High-Impact Marketing Campaigns**, including interactive voting brackets and NBA sweepstakes, to elevate brand engagement and drive user participation.

OTHER POSITIONS HELD BEFORE 2015

SK Holdings, Full-Stack Developer (2014 – 2015), **Crate & Barrel**, Front-End Developer (2012 – 2014), **Creative Circle**, Freelance Web Developer (2010 - 2012), **Chicago Music Exchange**, eCommerce & IT Director (2008 - 2010), **Agora Web Solutions**, Developer & Project Manager (2007 - 2008), **Emalfarb Swan & Bain**, Director of Communications (2005 - 2007), **Motorola Inc.**, Resource Management Engineering Intern (2004 - 2005), **Market Partners**, Interactive Promoter (2002 - 2004), **Northwestern University's International Center for Advanced Internet Research**, Data Analyst ('00 - '02).

EDUCATION

Northeastern Illinois University, Chicago IL - *Bachelors of Science 2005 Graduate*

Computer Science Major with a Minor in International Business Marketing and Management.

Extra Curricular: WZRD 88.3 fm Radio Station Manager, Student Government Senator.

ONGOING EDUCATION & CERTIFICATIONS

AAA Game Production - Taught by Andy Johnson (Pokémon, Minecraft) & Dan McAuliffe (Bungie, MTG)

Adobe Experience Manager Development & Content Management - Taught On-Site by Adobe Consultants

Application & Cyber Security - Taught by Jim Manico (OWASP Foundation Co-Founder)

Agile Scrum Methodology Transformation - Taught by Marty Cagan (Silicon Valley Product Group)

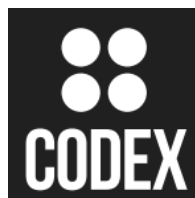

OBJECTIVE & GOALS

Over the past 20+ years, I've intentionally built a career around leading complex, high-impact digital initiatives for top brands. Through both full-time and consulting roles, I've partnered with organizations enterprise web solutions that consistently improve performance, accessibility, customer experience, and revenue.

Through my B2B consulting company, Codex Creative, I've had the opportunity to own roadmaps, lead cross-functional teams, and drive projects from discovery through launch and ongoing optimization. I love all aspects of the development cycle.

I'm excited to bring this breadth of experience into a long-term role where I can deepen my impact, help shape a modern digital ecosystem, and mentor teams while delivering clear, measurable business results.
